Subject: Request for COVID-19 Information

To Whom This May Concern:

This letter is to report the services and activities that LSW Engineers Arizona, Inc. (LSW) provides that relate to the Corona virus (SARS-CoV-2) or COVID-19. The bulk of our systems and processes relate to building environmental systems however, there are a few items that are related to electrical systems (lighting) and potentially some technology systems. These services are related to assessment and design for individual systems or entire buildings.

LSW understands that there is significant pressure on the local administrators and facilities staff. It is our objective to provide the best support and guidance to provide as healthy and safe environments as possible. If there are concerns that need addressed LSW can point out those issues and be there proactively with options for improving the conditions of the systems and/or spaces in question. In no order, the following list may be used for services provided by LSW:

- Covid-19 (SARS-CoV-2) HVAC systems Analysis/Assessment/Design
- Filtration Assessments
- UV sterilization Study/Design
- HVAC System filter upgrade Study/Design
- Ventilation effectiveness Study
- Bi-polar Ionization systems Design for HVAC
- Humidification Analysis/Study/Design
- Building/Zone Air Pressurization Analysis/Study/Design

This list is not meant to be exhaustive and combinations of these services may be necessary to achieve the best outcome for a specific zone, space, building or campus. LSW is here to assist with these concerns and give you answers and solutions, so you provide answers and confident responses to administrators, the public, the employees and all the others. Contact LSW to let us provide you a proposal for the solution that best suits your needs.

Sincerely,

Lance Jones, President of LSW Engineers Arizona, Inc.
