

HEALTH & SAFETY FIRST

The New Norm Janitorial Product Checklist

As a national distributor of facility supplies, NETWORK has partnered with educational institutions to determine the best practices for cleaning and disinfecting, to help you meet the highest standards as you navigate these new challenges. NETWORK can help you clean for health and delivers a full range of insights and solutions.

Product Needs	Considerations
Hand Sanitizer	Current Dispensers? Size? Portability? Strategic Location Selection, Classroom, Hallways, Entry Areas, Staff Input, Wall mount versus floor stands
Disinfectant & Cleaners	Understanding When & How to Disinfect vs. Clean, Educate Teachers and Staff on Protocols & Procedures, Proper Labeling, Frequency, High-Touch Object List
Dispensing and Applying the Disinfectants and Cleaners	Appropriate Application Supplies, Disposable Wipers, Microfiber, Mop/Broom, Tote/Bucket, Surface Sprays, Dilution Systems, Supply Replenishment
Hands Free Everything	Towel Dispensers, Sanitizer Dispensers, No-Touch, Pedal-operated
PPE	Gloves, Masks, Face Shields, Gowns
Signage & Decals	Handwashing and Hygiene Guidelines, Promote Protective Measures, How to Stop the Spread, Safe-Distance Mats, "This area has been disinfected for your safety"
Common Areas, Shared Spaces and Resources	Cafeteria or Dining in Classroom? Food Service Disposables, Larger Trash Receptacles? Shared Items: Books & Laptops?
Misc. Equipment	Extra Carts & Bins for Storing Cleaning & Wiping Supplies
Documentation	OSHA, SDS, Planning, Protocol Health Checks
